

### Start today for tomorrow's career

The options after MBBS are vast as the program aims to make students competent practitioners in the skills necessary to lead a successful medical profession; have the foundation necessary to pursue research and education at higher levels; and become productive members of the medical community.

### Become a doctor to serve humanity

As a medical 'student-in-training', you will be provided with competent practice of medicine and advancement of knowledge about diseases, their prevention and management as a lifelong educational process.

### Apply online and attach the following documents

#### For Bachelor Program

- Copy of Marks card of NGSSE 12th grade or equivalent.
- Conduct or character certificate/reference letter from the school/college on letter head.
- Attach one JPEG photo in online application form & submit 5 hard copy photos (passport-size) during admission.
- One copy of passport along with residence visa (wherever applicable)
- Copy of TOEFL / IELTS scores.
- Copy of Equivalency Certificate (for students who studied foreign curriculum in UAE)

## Highlights

The preclinical curriculum has been designed to integrate the different basic science courses to help students develop their clinical decision making abilities through active learning sessions like Team Based Learning (TBL), Case Based Learning (CBL) and Self Directed Learning (SDL), which are introduced right from the first year of the MBBS Program. In addition, clinical training and internships are provided in government hospitals at Ras Al Khaimah & Fujairah.

## **Explore Beyond knowledge! Make a difference to others.**

RAKMHSU's Bachelor of Medicine and Bachelor of Surgery (MBBS) program comprises of two years of pre clerkship (integrated applied basic sciences) courses & 3 years of clinical clerkship courses. The total program duration is five years. After graduation, one year internship is required as per the guidelines of the ministry of health, UAE, to practice medicine in the UAE.

The curriculum provides learning opportunities for medical students to acquire fundamental knowledge, basic skills and appropriate principles relevant to health care in the context of the community.

The five year curriculum has been designed to follow integrated and problem oriented approach to medical science. It integrates basic and clinical sciences, enabling students to apply their knowledge to health care and develop a professional yet compassionate approach to the analysis and management of health.
