## Learn to provide the right dosage. Facilitate better patient care.

RAKMHSU's **Bachelor of Pharmacy (B Pharm)** program comprises of six months of general education, one year of basic sciences, two-and-a-half years of pharmaceutical sciences, along with the Practice School Training. The total program duration is four years.

It has been developed to provide learning opportunities for acquiring fundamental knowledge and basic skills and appropriate principles relevant to health care in the context of the community. Basic and pharmaceutical sciences are integrated, and the curriculum prepares them for evidence-based pharmacy practice in today's changing health care environment. All this is accomplished under the supervision of qualified and experienced faculty.

### **Make a difference to the patient care:**

As a pharmacist you will ensure the safe and effective use of medication. You will be participating in disease state management, where you optimise and monitor drug therapy, through various clinical Pharmacy services in the hospital. There are many areas of expertise where you will be a critical source of Pharmaceutical knowledge in clinics, hospitals, and community pharmacies.

### **Two year Master programs:**

#### **M.S. in Clinical Pharmacy**

Prepares students for evidence based pharmacy practice in the changing health care environment of the 21st century.

#### **M.S. in Pharmaceutical Chemistry**

Provides specialized education required to work in Pharmaceutical industry and other areas

#### **M.S. in Pharmaceutics**

Provides specialized education required to work in Pharmaceutical industry & other areas.
